# Borea

DESIGNED BY PIERO LISSONI

Borea is a complete and eclectic collection of outdoor seats and tables designed by Piero Lissoni. The numerous pieces in the collection have in common tubular metal structures with a fluid and seamless design, without joints and interruptions, captivating and even emerging in the detail that extends to the base. The metal bending processes take advantage of techniques typically used in the aeronautical sector and transport them into the world of outdoor furniture bringing life to a collection with an unmistakable style. The collection includes two- and three-seater sofas, an oversized armchair, a low small armchair and a dining chair, all with stackable aluminum structures painted. Comfort is ensured by generous cushions, which are not only soft and relaxing but were also developed to be sustainable. Paddings are in fact made with polyester fiber filling coming from recycled PET plastic bottles enveloping a different densities polyurethane core. 510 1500 ml bottles are needed to create the padding for a Borea three-seater sofa, 390 bottles for the twoseater sofa, 280 for the armchair.

Comes with:  
OFW48x48 - 45x45cm optional cushions (x2)

# Ayana

DESIGNED BY NAOTO FUKASAWA

Minimalist and innovative, the Ayana collection becomes a new chapter in the story that connects B&B Italia to Naoto Fukasawa. It sees wood as the protagonist, interpreted in an unusual way, with a pleasant oriental touch.

If the depths and heights are a clear reference to the south-east Asian tradition, the backrest recalls a Swedish wall bar, an exercise equipment turned into a load-bearing element. Thanks to this solution, the elements of the Ayana collection can be enjoyed and appreciated at 360 degrees, discovering on each side a new elegant interplay of intersections and proportions. Two and three seat sofas and the armchair have armrests at different heights.

The armchair armrest is higher to guarantee a more ergonomic seat. The sofa armrest, which is lower, can be combined with a cushion that is easy to be fastened and removed, and helps to lie down more comfortably if necessary.

The upholstery of this collection stands out for the individual cushions, all covered with waterproof fabrics.

Ayana is a project with a green soul.

The teak used to make the structures is FSC certified (Forest Stewardship Council) and all the materials that make up the various elements of the series, at the end of the product's life cycle, can be separated and disposed of with respect for the environment.

# Gio

DESIGNED BY ANTONIO CITTERIO

Gio, designed by Antonio Citterio, is the new series with a contemporary classic accent dedicated to living in the open air.

A complete range of sofas, end units, chaiselongue, sunbeds, armchairs, chairs, tables and complements which have been developed from solid teak structures with a special antique grey finish, which gives the wood a particular lived-in aspect and silver-grey reflective quality.

Through the quick ship program the linear sofa 238 cm and the rectangular small table 120 cm are available.

# Hybrid

DESIGNED BY ANTONIO CITTERIO

After the great success of Ribes, Antonio Citterio developed some design ideas behind it and created Hybrid, an innovative new system of modular seating elements that it is so versatile it can be arranged into an almost infinite number of combinations. The key role of the textile dimension stands out immediately, with upholsteries that cover completely the generous padding, the absolute protagonist. These are typical elements of indoor furnishings, which find with Hybrid an outdoor interpretation. Hence the name of the collection, which is proposed as a real link between the inside and the outside of the house.

Hybrid represents in fact the perfect furnishing element for climates and spaces that are defined by a continuous blend of inside and outside environments, with rooms that open to an en-plein-air dimension, and for living spaces integrated into terraces and gardens.

The combination of opposites happens not only visually, but also through the sense of touch. Hybrid guarantees in fact the typical comfort of traditional upholstered furniture for interiors, thanks to a new type of mattress seat conceived for outdoor furnishing.

The cushions are actually made with paddings with different densities, carefully designed to pleasantly accommodate the new compositions.

body and support it at the same time, without sinking. The supporting structures are almost invisible, and the seat seems to float a few centimeters above the floor. The solid base is formed by a frame in extruded aluminum painted in the colours sage, clay and anthracite, and is completed by a platform with fiberglass slats. The backrest conceals an aluminum structure, covered with soft polyurethane, which is in turn covered with a padded sheath, completed with a cover in waterproof fabric.

The platform is available in eight sizes and two depths, while the armrest and backrest come in two heights. To guarantee further comfort to the deeper seat, the low backrest can be raised with an additional headrest cushion. Additional cushions in various sizes enrich the range, offering countless design and chromatic solutions.

The Hybrid collection also includes a series of new outdoor fabrics made with mélange polypropylene yarn in five colour variants that are accented by refined trims. Choices that confirm a decisive and elegant presence for interiors and outdoor spaces.

All the objects in the Hybrid collection can be dismantled completely. At the end of the life cycle, each individual element can be separated and disposed of following the path best suited to each material.

# Ray Outdoor Fabric

DESIGNED BY ANTONIO CITTERIO

Ray Outdoor Fabric features an interlacing ribbon pattern, created using polypropylene fibre that are resistant to UV rays and weathering. The range of colours, particularly suitable for outdoor environments, varies from turquoise to blue and from acid green to tortora through bright Bordeaux.

The collection consists of sofas available in two depths as well as modular elements such as terminal elements or chaise longue and armchairs. Ray fabric left/right sectional sofas with interlacing are available through this program.

# Fat

DESIGNED BY Patricia Urquiola

The Fat-Sofa Outdoor collection stands out for its rounded, soft and sinuous shapes, echoing the features of the indoor system of the same name. Its fully padded seat is accompanied by a back with a metal frame that supports the original weave, made of dove grey coloured twisted polyethylene fibres. A technique with a graphic effect and macro dimensions that make the design unique, respecting the designer's idea of lightness and transparency, and putting the furnishings in an open "dialogue" with the surrounding environment. The Fat-Sofa Outdoor collection consists of an in-line sofa in two sizes and a large relaxing seat. The series is complemented by an armchair with backrest in two heights and different sized ottomans.

# Pablo

DESIGNED BY VINCENT VAN DUYSSEN

The Pablo armchair by Vincent Van Duysen, with its decisive design and innovative proportions, is available in an outdoor version, breathing life into a series that includes an armchair in two depths, sofa, and footrest. The soul of the original project lies in the wood frame, which for Pablo Outdoor is made of teak, the ideal material for outdoors. The geometry of the supporting frame presents a sophisticated balance of straight and curved lines, but this is not just an aesthetic choice. In fact, the frame, with its uninterrupted surface, was designed to ease maintenance of the wood, which is easy to treat as necessary. The rear fabric panels are anchored to rods that can be removed easily. This is also an aesthetic choice that meets a technical solution aimed at simplifying care for the wood and maintenance of the textile parts. These design expedients allow customers choosing the Pablo Outdoor collection to let it age naturally or have it returned its original condition. The continuity of the form and quality of the wood make Pablo Outdoor particularly pleasant to the touch. Comfort and softness are also found in the deep seat and back enhanced with cushions that can be arranged freely. The low seat is composed of a single generously upholstered cushion, nearly a mattress that creates an ample area perfect for isolating yourself or sharing moments of conviviality.

# Mirto Outdoor Chaise Lounge

DESIGNED BY ANTONIO CITTERIO

A classic is born. Different types of seating: armchairs, chairs and a chaise longue are included in the collection. The folding armchair revisits the classic shape of a movie director's chair, with special details. The mesh and metal parts are finished in two colours, white and tortora, creating two colorway options in a single colour. The table and small table have the same frame and top in painted aluminium and are available in select colors. The collection expresses Antonio Citterio's stable elegance.

"Set of small mattress, headrest cushion and cover is also available separately".

# Crinoline

DESIGNED BY PATRICIA URQUIOLA

The Crinoline chairs and stools are characterised by a sophisticated polyethylene fibre interlacing with a surprisingly natural texture. The chairs are available in two versions: with a woven backrest combined with a bright stainless steel base and a fabric upholstered seat; or with an aluminium frame that supports the curved seat and back, as if to create an entirely interwoven double shell silhouette. The stools, in two heights, have a woven back, a bright stainless steel base and a fabric upholstered seat.

# Erica '19

DESIGNED BY ANTONIO CITTERIO

The Erica collection of sofas, armchairs and small chairs that was so successfully launched in 2017 has been enhanced by new sofas, still based on the same characteristic curved backrest and interlacing as before but offering a deeper seat and lived-in appearance.

The sofas come in three extra-comfortable sizes - the 170 cm and 216 cm styles with a 96 cm deep seat and the 153 cm version with a 140 cm seat - and the cushions have a different type of filling giving an even softer and more natural look and making them even more inviting.

The unusual colour juxtaposition of frame and interlacing in anthracite, tortora or a frame in sage with natural-coloured interlacing can be complemented by a vast range of cushion covers, in an array of tones and designs, all co-ordinating with each other. There is also a chair with armrests with an brand new interlaced backrest.

# Mirto Outdoor

DESIGNED BY ANTONIO CITTERIO

Timeless, resistant and durable, both from a formal and a physical point of view, the Mirto Outdoor chairs express an elegance that transcend time and fashions. They come in a fixed version, with or without armrests, and in a folding version, reinterpreting the classic director's chair. They feature a light aluminium frame and a seat and back in Batyline® Canatex mesh, whose hemp fibre confers a surprisingly natural look compared to the plastics usually used in this sector. The edges are expertly cut, sewn and glued around the profiles to create a minimalist décor. Mirto Outdoor is a complete series of outdoor furniture inclusive of chairs, armchairs, loungers, dining tables and furnishings.

DESIGNED BY VINCENT VAN DUYSSEN

The decisive yet soft lines of Pablo Outdoor seats are perfectly balanced in the small cement outdoor tables. Linear, solid, and highly geometric shapes represent the heart of these architectural objects with a certain effect. To provide multiple solutions, the small Pablo Outdoor tables come in two sizes and two colours. The colours give shape to a large, low model that works perfectly as an island defining a conversation area, and a higher, narrower model, is ideal as a service element next to the sofa or armchair.

# Colosseo Outdoor

DESIGNED BY NAOTO FUKASAWA

In 2020 Colosseo debuts outdoor in the new porcelain stoneware version in sage and clay colors. A furnishing element with various functions depending on the occasion and need (coffee table and pouf). Colosseo takes its name from the designer's inspiration. Naoto Fukasawa has in fact arrived at the desired shape thinking of a solid in the shape of an upside-down truncated cone, creating an assonance with the structure of the famous Roman arena.

# Fat-fat Outdoor

DESIGNED BY PATRICIA URQUIOLA

The concept of a tray helped create three small outdoor tables with steel frames that give them a lightweight look. These small tables are entirely painted in the finishes anthracite, tortora, sage and clay or with tops in porcelain stoneware.

# Hospes

DESIGNED BY B&B ITALIA CR&S - 2020

The B&B Italia's Research & Development Centre has developed Hospes, an extremely versatile ottoman that is at its best in any room. A dynamic complement that can be used in different ways and fits perfectly with different product families. Made in two sizes and three colors - overseas blue, stone, anthracite - it is based on a robust aluminum frame covered with an interlacing of waterproof ropes. On top, the interlacing is held up by webbing that provides support and comfort.

# Tramae

DESIGNED BY unPIZZO

unPIZZO, a design studio and textile handicrafts laboratory specialized in interlacing for furnishing, continues its research on the revival of ancient craft techniques with Tramae, a brand new ottoman for B&B Italia.

Available in three dimensions, this small object full of character stands out for its hexagonal shape, which is rounded until the edges are no longer visible.

The surface shows a singular dynamic mix of materials and colors that come to life through an exclusive weave that reinterprets the tradition of wicker basket making in a contemporary key.

At the end of its lifespan, Tramae can be dismantled completely so that each component can be separated and disposed of in the best way for each material.

# Outdoor covers and upholstery

---

## FOUTDOOR FABRIC

The threads in B&B Italia Outdoor fabrics offer excellent colour resistance to UV rays, brine, chlorine, acids, suntan creams, sweat, stains and wear.

The stabilisers added for outdoor use and the additives used for dyeing the thread prevent the formation of bacteria, mold and fungus.

The stitching on the covers is designed with a special thread with a water-repellent finish, that blocks the absorption of water and penetration through to the fabric. Carefully tensioned stitching prevents the passage of water through the needle hole.

The water resistance of the fabrics, differs according to their fiber composition and their treatment.

To launder the Outdoor covers at home, please follow the instructions represented by the care symbols attached to the product.

## OUTDOOR UPHOLSTERIES

**Polyester covers:** to better protect the upholstery (seat cushions, headrests and backs), all cushions are fitted with a polyester cover whose water repellent treatment offer greater protections and an additional barrier against the penetration of liquids. The covers on Butterfly and Fat-Sofa Outdoor upholstery also offer the additional protection of a heat-sealed ribbon under the stitching, which makes the linings completely waterproof.

**Upholsteries:** The seat cushions are made of contoured polyurethane, and the backrest cushions are in polyester fiber. To fight the formation of folds and/or wrinkles caused by use, we recommend simply hanging the cover out and beating it manually to remove dust and air from the fibres. If the upholstery accidentally gets wet because of a strong, unexpected shower, we recommend removing the cover and allowing the product to air/sun dry. Husk Outdoor upholstery: regularly detach the cushion from the frame and fluff it up on all sides.

To launder the upholstery at home, follow the care symbols attached to the product. Hang it in the open air to dry. When the product is not being used (for example, in the winter), we recommend you remove the seat and back cushions and place them in a dry, ventilated area.

Descriptions and pictures of products included in this catalogue have an indicative value only and are not binding for products' use. B&B Italia reserves the right to modify their products without prior notification.

For further technical information of the products, please contact the authorised dealer closest to you (see [www.bebitalia.com](http://www.bebitalia.com)).
